

Kindergarten Screening

is coming to Isle of Wight County Schools!

Who: All fully registered or partially registered kindergarten students

What: We will spend about 30 minutes with your K student to see what skills have already been mastered and which skills we need to be ready to teach in September. **This is an important time that helps us build classes to best fit the needs of our students.** Please be patient as it will be difficult to know when people will arrive and there may be wait times.

When: Please report to either school for screening no matter what school your child will attend. The dates and times are below. Also, please contact your home school if for some reason your child can not attend the event.
